Following the entry into force of the L. 4622/07.08.2019, the National Transparency Authority (henceforth NTA) was established, as the Independent Authority with an anti-corruption mandate. NTA seeks to design and implement a government wide National Integrity System namely, a single national framework to prevent unethical behaviour and misconduct and promote good and accountable public governance in Greece.

The project is built around two main components:

2. The improvement of the legal framework and of procedures regarding asset recovery and asset management.

The first component will include, inter alia, the following activities:

Total maximum eligible costs:	€ 2,010,000
Project grant rate:	100.00 %
Maximum project grant amount:	€ 2,010,000

The project aims at strengthening the capacity building of the Greek Ombudsman, both in terms of human capacity and infrastructure in order to combat maladministration and promote the principles of transparency, good governance and equal treatment. In order to achieve these goals, citizens' accessibility to the Ombudsman services is crucial. Citizens' accessibility will be improved through an updated IT infrastructure as well as with active presence of the Ombudsman in the regions.

An Ombudsman office in Thessaloniki is of major importance so as to achieve better accessibility and visibility in North Greece, taking into consideration the range and nature of problems identified in the region as well as the scale of services to be performed by the Greek Ombudsman in North Greece through a regional Office.

In order to enhance Ombudsman presence in all regions, visits will be scheduled all over Greece, with emphasis on the areas with scarce presence (e.g. big cities of Dodecanese prefecture, North Aegean, Peloponnese, Crete, etc.). Moreover, the Ombudsman will cooperate with the regional and local authorities to develop a network and strengthen cooperation. Through these visits the Ombudsman will improve the operation of regional administrative structures and services, aiming at effectiveness and transparency.

The project will also support awareness raising on the Ombudsman mandates, promoting its preventive role, strengthening cooperation with the public authorities as well as with the civil society.

The project will include, inter alia, the following activities:

- the establishment of an operational office in Thessaloniki;
- visits of the Ombudsman staff in the regions and strengthening of cooperation with public administration;
- strengthening the IT infrastructure of the Ombudsman office;
- continuing education of the Ombudsman personnel;
- awareness raising, assisting in combating exclusion and in strengthening cooperation.

The EU Agency for Fundamental Rights (FRA) will contribute to the fulfilment of the above goals through its contribution to trainings and capacity building activities related to fundamental rights, in particular in specific areas of its competence and expertise, including in relation to groups in vulnerable situations, such as persons with disabilities, Roma, children, prisoners in detention, etc.
